All,

I have entered PR-OSWER-15-0543 in EAS for the ASPECT support to Region 8. Lessa Givens, our CMAD FCO, enters the accounting information so I was not sure where to put that in at. I gave Joe, Bethany, Lessa and Christie full rights access in EAS so they could make changes as needed. I routed it for 'review' only to Joe and Bethany. Once the accounting information is entered correctly it can be changed to for 'approval'. Lessa usually makes that final change to 'approved' in our office.

Once this PR is approved then it automatically routes to Mark Heare at OAM/SRRPOD/HCSC and then gets forwarded to the CO, Christie Deskiewicz.

I hope this helps move things along.

Tim,

If you can initiate the PR and route it through Bethany Mills in EAS, we can get this going. The following LOA should be put on the PR:

2015 T 8A00E 303DC6 A8K9RV00

Thanks,

Joe

Is a PR routing through the system already? The Contract Officer was asking about it.

Martin and Joe,

The contract costs are reasonably well defined now. The total deployment cost is just over \$78,000. The mobilization and demobilization of the aircraft and crew are being paid by CMAD since that cost varies greatly for each region. That was \$7000 each way or \$14,000 total. The daily costs once the crew reached the event ran just under \$11k per day. The aircraft was there from Thursday evening until Wednesday. The contractor costs for the Region will be \$64,000. A detailed cost accounting can be provided once the invoice is received if needed. These funds will be assigned to Task Order 34, Emergency Deployments. The SOW and IGCE for Task Order 34 have already been reviewed and approved so the good news here is that the funds are an incremental addition to that current Task Order, no new documents need to be generated.

I can draft a PR in EAS and route it to the people you want or you can put together your own. The contract number is EP-W-12-005. The Contract Office is SRRPOD/HCSC. The head of that group is Mark Heare and the CO is Christie Deskiewicz. If you need anything else please give me a call on my cell at any time.

Now you guys wanna get paid?

Sorry, low bandwidth when the bills kept coming.

Thanks for all the help!

Joe-

HQ EOC said you are the financier for the response, my apologies if you are not. I am looking for accounting codes for EPA FTE supporting ASPECT for the response as well as the ASPECT contract. The contract has not invoiced, so this is not a rush and frankly, we just need People Plus codes for the COMP/OT, not the 9-5 M-F (unless all labor is being tracked specially for this).

If you all have not figure out how this will be paid for, no worry, just let me kow.

Many thanks.
